Economy Rankings

Economies are ranked on their ease of doing business, from 1–190. A high ease of doing business ranking means the regulatory environment is more conducive to the starting and operation of a local firm. The rankings are determined by sorting the aggregate [distance to frontier \(/data/Distance-to-Frontier\)](#) scores on 10 topics, each consisting of several indicators, giving equal weight to each topic. The rankings for all economies are benchmarked to June 2016. Read the methodology, explaining how the [ease of doing business rankings and the distance to frontier measure are calculated \(~media/WBG/DoingBusiness/Documents/Annual-Reports/English/DB17-Chapters/DB17-DTF-and-DBRankings.pdf\)](#) (PDF).
